

Parking regulations exist for the benefit of all site users. Anyone parking at a University site is expected to adhere to these regulations.

All University sites are very busy pedestrian areas so please drive carefully at all times.

The University does enforce its parking regulations and failure to adhere to the regulations may result in a penalty charge notice being issued.

Anyone consistently failing to adhere to the regulations may have their parking permit revoked.

The University of Worcester accepts no responsibility for the security of vehicles parked on site.
